Jeremy, this is Bob Dietz a long time resident of NC and I am asking you and our Governor to please require at LEAST three more public hearings on this ACP project. I know you and the Governor realize the lack of need for this fossil fuel project that places so many low income families in "the line of fire" is not needed and will not help bring our area the economic boost these energy companies advertise. I ask you to please support future hearings before any decision is made. Thank you in advance.
